

Rhea Adama was appointed General Manager Locomotive Shops (System) in June, 2017.

Rhea is responsible for all Mechanical Locomotive Shops across Canadian Pacific's network. Her current focus is on further improving safety, service reliability and effective cost control.

Rhea joined CP in 2010 as Director, Locomotive Maintenance. In 2012 she was promoted to General Manager, Strategic Sourcing, Rolling Stock with a portfolio focused on effective supply chain management of CP's rolling stock and intermodal activities.

In 2014 Rhea was promoted to General Manager Locomotives (System) with accountability for locomotive maintenance and reliability, sourcing, procurement and long-term fleet planning.

Prior to her career at Canadian Pacific Railway, Rhea spent 10 years with Alstom Transportation in various project and contract management roles.

She holds a Bachelor of Arts, Graduate Diploma in Business Administration and is a certified Project Manager.
